PROJECTS

- I designed a circuit board that helps in the prototyping of digital circuits.
(<https://hackaday.com/2018/09/08/see-binary-on-your-breadboard/>)
- Contributed to the development of an Airbus A320 flight simulator by designing circuit boards for the cockpit, as an extracurricular project.

PROFESSIONAL EXPERIENCE

Member, ECE Course Core

FEB 2018 - FEB 2019

- Organized lectures and activities for the course.
- I dealt with public relations both on the part of the course students and the Student Association.

Financial Responsible, ECE Course Core

FEB 2019 - FEB 2020

- Organized budgets for all activities organized by the Course Core.
- I prepared and led presentations.
